[Communication] Evaluation of a Sodium Hydroxymethanesulfonate Product for Reducing Total Ammonia Nitrogen in a Small-Scale Rotifer Batch Culture System
Marty Riche, Timothy J. Pfeiffer, and Javier Garcia

[Technical note] Results of First Experiments on Application of Electrical Stimulation of Blue Catfish Testes for Production of Channel Catfish × Blue Catfish Hybrids
Christopher C. Green, Anita M. Kelly, and Nagaraj Chatakondi

Evaluation of Six Feeding Regimens for Survival and Growth of Shortnose Sturgeon Fry
Kent M. Ware, James P. Henne, Brian H. Hickson, and Kevin Charlesworth

Roy P. E. Yanong, Jeffrey E. Hill, Chris J. Daniels, and Craig A. Watson

[Technical note] Temperature-Dependent Formaldehyde Degradation in Trickling Filters
Lars-Flemming Pedersen and Per Bovbjerg Pedersen

[Communication] The Effect of Temperature Changes and Transport on Cutthroat Trout Eggs Soon after Fertilization – Eric J. Wagner, Romney E. Arndt, and Ron Roubidoux

[Communication] A Linear Growth Model for Nile Tilapia in Intensive Aquaculture
Richard W. Soderberg

Comparison of Pond Production of Phase-III Sunshine Bass Fed 32-, 36-, and 40%-Crude-Protein Diets with Fixed Energy: Protein Ratios – James E. Wetzel, Craig S. Kasper, and Christopher C. Kohler

The Effect of Biomass Density, Salinity, and Substrate on Transport Survival of Juvenile Freshwater Prawns Macrobrachium rosenbergii in Continuously Oxygenated, Vented Containers
Shawn D. Coyle, James H. Tidwell, Jason Danaher, David K. Yasharian, and Leigh Anne Bright

[Communication] Reduced Formalin and Hydrogen Peroxide Treatments during Walleye Egg Incubation – Craig A. Soupir and Michael E. Barnes

Effect of Practical Diets with Animal or Vegetable Protein Sources and Poultry Oil or Menhaden Fish Oil on Adult Fathead Minnow in Tanks – Rebecca Lochmann and Sathyanand Kumaran

[Technical note] Use of Luteinizing Hormone Releasing Hormone Analog and Human Chorionic Gonadotropin to Spawn Early-Egg-Stage Striped Bass – David M. Yeager
