Environmental Influences on Walleye Fingerling Production in Southwestern Minnesota Shallow Lakes
Matthew J. Ward, Shannon J. Fisher, and David W. Willis ......................................................... 297

Mortality Rates in Golden Shiners Fed High-Fat Diets with or without a Dairy-Yeast Prebiotic before Challenge with Flavobacterium columnare
Todd D. Sink, Rebecca T. Lochmann, Andrew E. Goodwin, and Emily Mareaux ......................... 305

[Communication] Astaxanthin-Supplemented Diets Do Not Improve Adult Survival of Coho Salmon
Jack M. Tipping .............................................................................................................................. 309

Evaluating Pond Shoreline Treatments of Slurried Hydrated Lime for Reducing Marsh Rams-Horn Snail Populations
Andrew J. Mitchell, Scott Snyder, David J. Wise, and Charles C. Mischke ................................. 313

[Technical Note] Design of a Portable Streamside Rearing Facility for Lake Sturgeon
J. Marty Holtgren, Stephanie A. Ogren, Aaron J. Paquet, and Steve Fajfer ................................. 317

Sex Genotype and Sex Phenotype Contribute to Growth Differences between Male and Female Channel Catfish
Kenneth B. Davis, Cheryl A. Goudie, and Bill A. Simco ............................................................... 324

Abstract · Full Text · PDF (60K) Influence of Stress and Dietary Natural-Source Vitamin E on Nonspecific Immunocompetence, Tissue Tocopherol Composition, and Postslaughter Fillet Oxidative Stability in Sunshine Bass Jesse T. Trushenski and Christopher C. Kohler ......................................................................................... 330

[Communication] Postrelease Survival of Hatchery-Reared Coho Salmon Juveniles Fed Low-Phosphorus and Other Diets
Jack M. Tipping and Karl D. Shearer ............................................................................................. 340

[Communication] Reproduction and Culture of Suckermouth Minnow
Kevin R. Bestgen and Robert I. Compton ..................................................................................... 345

Use of Turkey Meal as a Replacement for Menhaden Fish Meal in Practical Diets for Sunshine Bass Grown in Cages
Kenneth R. Thompson, Linda S. Metts, Laura A. Muzinic, Siddhartha Dasgupta, Carl D. Webster, and Yolanda J. Brady ......................................................................................................................... 351

Abstract · Full Text · PDF (87K) Preliminary Pond Evaluation of a Natural-Based Algicide for Managing Musty Off-Flavor in Channel Catfish Aquaculture
Kevin K. Schrader, Craig S. Tucker, and Charles C. Mischke ...................................................... 360

[Communication] Protocols for More Effective Induction of Tetraploid Rainbow Trout
William K. Hershberger and Mark A. Hostuttler ........................................................................... 367

The Effects of Harvesting and Hauling on the Blood Physiology and Fillet Quality of Market-Size Channel Catfish
C. Douglas Minchew, Rachel V. Beecham, Philip R. Pearson, Bartholomew W. Green, Jin M. Kim, and Susan B. Bailey ......................................................................................................................... 373
Heritability of Cold Tolerance in Red Drum
Liang Ma, Eric Saillant, Delbert M. Gatlin III, William H. Neill, Robert R. Vega,
and John R. Gold ........................................................................................................ 381

Polyculture of Endangered Bonytails and Razorback Suckers in Recirculated Water
James P. Henne, Matthew M. Romero, and Gary J. Carmichael .................................. 388

Alternatives to Freeze-Dried Krill in the Feed Training Phase of Largemouth Bass
Nicholas A. Skudlarek, Nathan J. Cochran, Mike Larimore, Steve Marple, Shawn Coyle,
and James H. Tidwell .................................................................................................. 395

Evaluation of the Ability of Partially Autolyzed Yeast and Grobiotic-A to Improve Disease
Resistance in Rainbow Trout
Wendy M. Sealey, Frederic T. Barrows, Katherine A. Johansen, Kenneth Overturf, Scott E.
LaPatra, and Ronald W. Hardy ..................................................................................... 400

[Communication] Effect of Tank Stocking Density on Larval Sunshine Bass Growth and Survival
to the Fingerling Stage
Gerald M. Ludwig and Steve E. Lochmann ..................................................................... 407

[Communication] Influence of Organic Fertilizer Source on Fatty Acid Composition of Zooplankton
and Sunshine Bass Fingerlings
Ryan L. Lane and Christopher C. Kohler ....................................................................... 413

Effects of Diets with or without Menhaden Fish Meal and Oil on Egg Size, Hatchability,
and Fry Size for Rosy Red Fathead Minnow
Sathyanand Kumaran, Rebecca Lochmann, Nathan Stone, Alexander Kachowski,
and Yong-Woo Lee .................................................................................................... 419

Insulin Response of Largemouth Bass to Glucose, Amino Acid, and Diet Stimulation
Todd D. Sink and Rebecca T. Lochmann ....................................................................... 429
